A treasure hunt, and a treasure

By Gerry Keller

I had heard a song on the radio a year ago at Christmastime that was done by The Carpenters. I am a church soloist, and I wanted to sing this song this Christmas. After much searching and researching, I found the name of the song, then the name of the album, then I turned to Amazon.com, and found the song book for the album. Now I will be singing the beautiful lullaby "Christ is Born" this Christmas season. This song book is a treasure of Christmas standards, as well as a few Carpenters' originals, such as "Merry Christmas, Darling". I will be using this songbook every Christmas!

Sheet music version of the Christmas album of the same name (which you can and should download, as well).

By Craig Matteson

This is the sheet music version of the music collection called The Carpenters Christmas Portrait. I recommend you download the album and listen carefully to the beautiful arrangements Richard Carpenter

put on that album and the velvety alto voice of Karen Carpenter. This will help you understand what you should try to achieve when playing these pieces. Obviously, the simplified arrangements here will not sound like a professionally produced album, but you can get in the spirit of the thing better if you have the right sound in your ears. And if you are a more advanced musician, you can build your own arrangement using those recordings and this sheet music as your launching pad.

There was a time when recording artists did seasonal albums because they sell each and every year. I am glad this music is still around for us to enjoy because I miss Karen's voice so much. She was a more sophisticated singer than people appreciate. And I admire Richard's skill as a pianist and arranger very very much. He is a lot better than he often gets credit for. Very fine stuff.

Everything You've Hoped For!

By Michael Spielman

I was very skeptical about buying this songbook. My fear was that it would simply be repackaged sheet music arrangements of the songs on one of my favorite Christmas albums. But I was completely overjoyed when I opened the book and found actual piano transcriptions of Richard Carpenter's incredible arrangements. And it's all there, from the amazing opening medley to the final, haunting "Silent Night". If you love to sit at the piano and play Christmas songs, this is the songbook you've been dreaming about.
